SUBURBAN TRANSIT NETWORK, INC.

# COMING SOON: SEVERAL NEW FEATURES FOR YOUR CONVENIENCE

TransNet is committed to make your riding experience a positive one. In the near future, TransNet will be adding three new features for your convenience.

- **Interactive Voice Recognition (IVR)** – will automatically call you the night before to remind you of your scheduled ride with the option to cancel, if necessary. The day of the trip, another call will automatically be generated to let you know that your ride is on the way.
- **Find My Ride PA** – will enable you to schedule a ride, confirm your ride, or cancel your ride via computer or smart phone.
- **Smart Phone App** – will enable you to schedule a ride, confirm your ride, or cancel your ride via smart phone, and will inform you of the estimated arrival time. This app will also show you the location of your vehicle on a map.

To take advantage of these upcoming features, TransNet will need you to update all your information on the reverse side. If you are not interested in using these features, please update your information and check the OPT-OUT box.
